CONTRACT SYSTEM

MANAGEMENT

COMMITTEE ON PROPRIETARY GOODS

OF THE

NATIONAL WHOLESALE DRUGGISTS' ASSOCIATION

PRICE 35 CENTS

PRICE LIST OF PROPRIETARY GOODS ON CONTRACT SYSTEM.

In presenting this Revised List of Proprietary Goods sold under the Contract System, the Committee feels that it cannot improve on the introductory remarks which have been printed in all the Lists hitherto issued, and which read as follows:

The prices named herein are the prices adopted by the Proprietor, at which he desires his articles sold. A plain, simple business contract is signed by the Jobber, binding himself not to undersell the Proprietor's adopted prices, either directly or indirectly, and for that consideration the Proprietor pays the Jobber a specific per cent. for distributing his articles. This method of dealing in Proprietary articles is called the CONTRACT SYSTEM.

Proprietors who have adopted this liberal policy are entitled to the fullest protection in their trademark rights. Imitations should be quickly frowned down, and the suspicion of a counterfeit article be at once reported to the Proprietor.

Your Committee has pledged Proprietors that all reasonable methods will be made to promote the sale of their goods.

The prices named are the minimum prices at which the goods can be sold. There will be no intentional deviation by honest firms or honest salesmen; errors by salesmen and errors in affixing prices by clerks may occur. Your Committee requests that the discovery of any deviation be first reported to the firm so deviating; then, if satisfactory explanations are not made, report the same to this Committee.

Some of the resolutions adopted at the last meeting of the N. W. D. A., held at St. Louis, in October, 1898, bearing upon the Contract System, are quoted herewith for the information and guidance of Proprietors, as well as dealers:

*Resolutions adopted by N. W. D. A. at
St. Louis, 1898.*

- Whereas*, Experience clearly demonstrates the correctness of the position taken by our Association in its annual meeting of 1893 in favor of uniformity of cost to retailers; and
- Whereas*, The principal difficulties encountered in maintaining rebate prices and terms are very largely due to sales made by proprietors at largest quantity discount to retailers, who, for the most part, use the goods so purchased to demoralize prices, both at wholesale and retail; and
- Whereas*, The retailer and the jobber are beginning to realize the seriousness of this phase of the situation more and more;
1. *Resolved*, That we reaffirm the position which we took in 1893 and join the National Association of Retail Druggists in demanding the correction of the evil practiced by certain proprietors, who should by this time realize fully the demoralizing tendency of direct sales to retailers, mostly cutters, at best discount.
 2. *Resolved*, That the Proprietary Goods Committee of this Association is hereby authorized and instructed to invite the co-operation of the Executive Committee of the National Association of Retail Druggists in helping to make the foregoing resolution effective.
 3. *Resolved*, That the Proprietary Committee is hereby instructed to eliminate from our official rebate list those preparations whose proprietor fails to enforce the terms of his contract in declining orders from such parties as shall be found guilty of violating contract prices or terms, and also such articles as have only a local demand.
 4. *Resolved*, That we reaffirm our support of the rebate plan of selling proprietary articles, and that our Committee on Proprietary Goods is hereby instructed to continue its services to proprietors by obtaining and furnishing information in the same manner as heretofore, restricting this part of the work in accordance with decisions which have been or may be rendered by the courts in the several suits now pending.

We also quote a resolution adopted at the meeting of the National Association of Retail Druggists, held at the same time:

*Resolution adopted by N. A. R. D. at
St. Louis, 1898.*

Resolved, That we request the manufacturers of proprietary articles that they limit the distribution of their goods, when sold at lowest prices, to the legitimate wholesale dealers, as recognized by the Proprietary Committee of the National Wholesale Druggists' Association, the Executive Committee of the National Association of Retail Druggists, and a committee of the Proprietary Association; and that we also request the jobbers not to sell to department stores or to persistently aggressive drug cutters.

The foregoing resolution was also endorsed by both the N. W. D. A. and the Proprietary Association at their St. Louis meetings, and it is earnestly commended to both Proprietors and Jobbers. In accordance with this resolution, the Committees of the three Associations have compiled a list of recognized Jobbers, which list is furnished to Proprietors by the Chairman of the Proprietary Committee of the N. W. D. A.

Respectfully,

FRANK A. FAXON, Chairman,
Kansas City, Mo.

M. N. KLINE, Philadelphia, Pa.
